

Open-loop geometric carry on D7 (rv05_manual_stored), CEM grasp, floor-free: construction. $k = 0.25$, $\theta = -90^\circ$, $b = 0.50$ rad (29°), turn 0.5 s

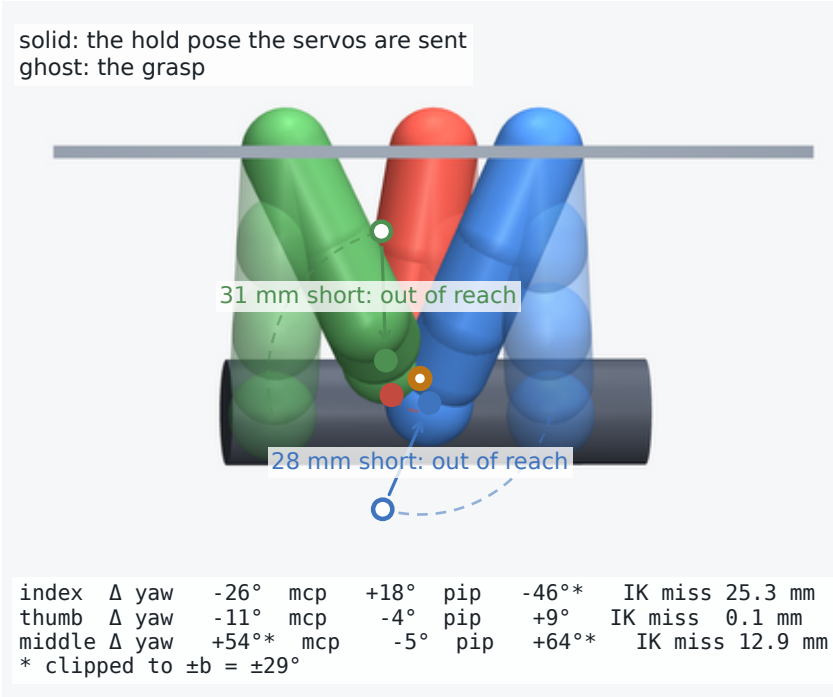

(a) grasp: the CEM grip, closed, lifted and settled

(b) construction: rotate the three pads by θ about P

(c) hold pose: per-finger IK to $l' T' M'$, clipped to $\pm b$

(d) the same construction in perspective
